SHU CSR Society Volunteers at Indus Hospital and Health Network on International Youth Day

SHU CSR Society, along with student volunteers from SHU, visited Indus Hospital today, that is, Friday, August 12, 2022 for a pre-Independence Day celebration with IHHN patients.

They had a wonderful time interacting with the patients there, decorating their wards, captivating them with stories, engaging them in fun activities such as face painting and games, and bringing huge smiles to each of their faces.

It's truly a wonder what the youth can do to bring positive change to society, and on this [#InternationalYouthDay](#), we're massively proud of our students for starting a wave of change by not only caring about those around them, but actually trying to do some good to make a difference.
